Re: Assets purchased from Estate of CertifiedTime Inc: Missing Atomic Clocks

Bill – As you know, I purchased in addition to Symmetricom’s paper with CertifiedTime, all of its assets which sat outside the US, and that of course meant the Atomic Clock’s in Japan.

The serial numbers are listed below – and I am putting you on formal notice that these are my property and I want them back in good operating condition. Further, if Symmetricom happens to have these under contract we would like to know their formal whereabouts.

Serial Number:	3249A00797
Serial Number:	3249A00230

We would like to discuss these and their implications with you as soon as possible.

Todd Glassey
