

Figure 1 - eDiscovery Processing Performance Comparison

Vendor	Performance	Source
Autonomy	IDOL engine indexes 110 GB / hour	Vendor claim http://arnoldlit.com/wordpress/2009/03/03/autonomy-idol-metrics/
<u>Clearwell</u>	Processes data at the speed of 1 TB / per day (or 46 GB / hour) and scales to 100 million documents on a single appliance	Vendor claim http://www.clearwellsystems.com/ediscovery-news/pr_02_01_10.php
Digital Reef	Indexes full text and metadata at a rate of 10 TB / day (or 426 GB / hour)	Vendor claim http://www.digitalreefinc.com/technology
Index Engines	Indexes up to 1 TB of data / hour (or 1,024 GB / hour)	Vendor claim http://www.indexengines.com/online_data.htm
<u>Kazeon</u>	Full content indexing at 17 TB / day (or 725 GB / hour)	Vendor claim http://www.kazeon.com/newsroom2/Press-Releases-2008/kazeon_pr_50608.pdf
<u>Recommind</u>	No specific performance metrics	
<u>StoredIQ</u>	17.5 TB of full-text indexing/day (or 747 GB/hour) and 175 TB metadata indexing/day	Vendor claim http://www.storedia.com/products/technical.aspx
