WHY?

The information you will gain and relationships that you will build by attending the conference are invaluable. You'll receive information on how to:

- Structure your compensation plan
- Legalize your company
- Recruit key employees and top-ranking distributors
- Develop a business model
- Generate leads
- Fund your business organization
- Establish your website and technology platforms
- Better understand the direct selling industry

- And, so much more

Read why people have consistently attended the MLM Startup Conference for over twenty years:

*-Launched [the company] Federal Chamber of Commerce in 2002, **after attending your Conference.** Contracted with Mr Alfred White to consult on our Compensation Plan. Recruited 10,000 Reps and \$5,000,000 volume in 9 months. Cashed out stock in 2003. Back again in 2013 with new partners and a new concept...*

-We want to get the fundamentals and the basics down... get a good review of what needs to be done to be successful...

-We have a traditional business at the moment and we are looking to take it into the realm where it's more personalized, it's more about building people and an experience. It has been absolutely worth our trip. We are looking to take our business to the next level and build relationships.

-[I've] been in network marketing for 30 years [but] we are learning a lot of things about how to launch, how to reach the people we need to have, and again, the things that are required to make a successful company, not only for us but especially for our customers and for our affiliates.

-I want to teach other people how to run their own clothing business and have fun doing it. I have a distribution plan. I have a unique product that I need to take nationwide in a couple of months.

-I'm here because I want to know more about multi-level and I can replicate that experience in my country (Columbia)... It's worth it to be here.

-The reason I came to the show was to learn more about how to launch my direct sales company. I'm very comfortable and accustomed to selling through more traditional networks; however, I believe that the product that I'm launching is more suitable for direct sales; to get direct-to-consumer faster and in greater sales.

-I have a huge to-do list... Once I know what I'm supposed to be working on I won't spin my wheels.
