

## Our Lien Calculator And Filing Service Is Used On Construction Projects Everywhere

We see new projects getting entered into our database everyday, with construction companies and suppliers across the country using the LienPilot to calculate the preliminary notice and mechanic lien requirements for their projects.

And that got us to wondering - where in the world are all these projects?

So, using the Google Maps API, we had our tech team put together a visual map of where the construction projects were located. It was quite awesome looking at the projects pop up all over the country.

[Take a look at the map here.](#)
