

Visual Calendar Shows You When Liens and Notices Are Due

Users of Zlien's [LienPilot](#) should notice a new link at the top navigation of their control panel: Calendar. Over the holidays, [Zlien](#) released this new calendar feature, providing users a web calendar where they can see upcoming deadlines in a list view, a month view or a year view.

The new calendar's list view, displaying some deadlines due in a demo account, looks like this:

Upcoming Deadlines Calendar

Today		List	Month	Year
Date	Description			
1 Feb 2011 10:00	[File Miller Act Notice] at 543 Ponce de Leon (Order This Document Now)			
14 Mar 2011 10:00	[File Suit to Enforce Lien or Release Lien] at Ex California Project (Order This Document Now)			
15 Mar 2011 10:00	[Construction Lien May Be Due] at 554 Test Street (Order This Document Now)			
22 Mar 2011 10:00	[Construction Lien May Be Due] at Rodeo Project (Order This Document Now)			
23 Mar 2011 10:00	[Construction Lien May Be Due] at Another Rodeo Job (Order This Document Now)			
30 Mar 2011 10:00	[Send Notice and File Lien] at 123 Local St (Order This Document Now)			
18 Jun 2011 10:00	[File Suit to Enforce or Release Lien] at 123 Local St (Order This Document Now)			
3 Nov 2011 10:00	[File Suit Against Bond] at 543 Ponce de Leon			
24 Aug 2012 10:00	[Final Deadline to File Mechanics Lien] at Ex Illinois Project (Order This Document Now)			
24 Aug 2012 10:00	[File Action to Enforce Lien or Release Lien] at Ex Illinois Project (Order This Document Now)			

This is really cool improvement to the LienPilot system that, through a variety of methods, used to only notify users of upcoming deadlines, but didn't offer any simple way to display the calendar dates of those due dates.

[Zlien.com](#) | Nationwide Notice and Lien Service | Lien Deadline Calculator

Zlien is a national mechanic lien and preliminary notice filing service. Zlien also provides the LienPilot, a web-based lien compliance manager and deadline calculator, and publishes mechanic lien resources.

Since the LienPilot is [a cloud application](#), you don't have to do anything to update the software to access this new feature. It just happens automatically, and you can view your calendar by clicking the "Calendar" link in the top navigation of your page.
