MLMLegal.com has tracked pyramid, consumer protection, endless chain, and MLM distribution statute legislation in each state.

The following is applicable legislation in Pennsylvania State:

## **A BRIEF MLM STATE LAW PRIMER**

Every state has adopted laws regulating MLM companies. Although much enforcement activity has come from the federal government through the FTC, SEC and U.S. Postal Service, the vast majority of enforcement activity has occurred at the state level.

From a historical standpoint, state regulation of multilevel marketing programs is a relatively recent phenomenon. For the most part, the three major direct selling companies that laid a foundation for the multilevel marketing industry for decades to come, Amway, Mary Kay and Shaklee, began their operations in the late 1950s. From a legal standpoint, matters went relatively smoothly until the major pyramid cases of the early 1970s involving Glen Turner's Dare to be Great and Koscot Interplanetary.

The Turner programs were prosecuted substantially [www.mlmlegal.com](http://www.mlmlegal.com) under securities laws and various consumer fraud laws. Along the way, most states adopted various forms of anti-pyramid legislation. Although generally targeting the same type of activity, state MLM legislation has taken its form as pyramid statutes, endless chain scheme statutes, lottery statutes, sales referral laws and, most recently, multilevel distribution statutes.

### **Pyramid Statutes/Endless Chain Schemes Statutes.**

Most state regulation of MLM companies comes under the auspices of pyramid statutes and endless chain scheme statutes. The language in these statutes is often quite similar. The comparison of two of these type statutes illustrates this point. For instance, compare California's endless chain statute with Oregon's pyramid law.

California Endless Chain Statute, California Penal Code '327:

"327. Endless chain schemes

"Every person who contrives, prepares, sets up, proposes, operates any endless chain is guilty of a misdemeanor. As used in this section, an 'endless chain' means any scheme for the disposal or distribution of property whereby a participant pays a valuable consideration for the chance to receive compensation for introducing one or more additional persons into participation in the scheme or for the chance to receive compensation when a person introduced by the participant introduces a new participant. Compensation, as used in this section, does not mean or include payment based upon sales made to persons who are not participants in the scheme and who are not purchasing in order to participate in the scheme."

## Oregon Pyramid Statute:

"pyramid club" means a sales device whereby a person, upon condition that the person make an investment, is granted a license or right to solicit or recruit for economic gain one or more additional persons who are also granted such license or right upon condition of making an investment and who may further perpetuate the chain of persons who are granted such license or right upon such condition. "Pyramid club" also includes any such sales device which does not involve the sale or distribution of any real estate, goods or services, including but not limited to a chain letter scheme. A limitation as to the number of persons who may participate, or the presence of additional conditions affecting [www.mlmlegal.com](http://www.mlmlegal.com) eligibility for such license or right to recruit or solicit or the receipt of economic gain therefrom, does not change the identity of the scheme as a pyramid club. As used herein "investment" means any acquisition, for a consideration other than personal services, of property, tangible or intangible, and includes without limitation, franchises, business opportunities and services. It does not include sales demonstration equipment and materials furnished at cost for use in making sales and not for resale."

As a general matter, the pyramid and endless chain statutes prohibit the payment of a consideration for the right to recruit others for economic gain where the compensation is unrelated to the sale of products or services. This language is very ambiguous and has resulted in legions of cases, many inconsistent in outcome. The ambiguity of the statutes has also led to selective and inconsistent enforcement policies.

Two operative terms "consideration" and "compensation unrelated to sales" are often looked at as follows. A prohibited consideration is generally referring to: (1) an actual monetary fee for the right to engage in the multilevel business, (2) inflated product prices in which the excess product price is viewed as a prohibited consideration, (3) front-loading or inventorying of product in which excessive product purchases are viewed as prohibited consideration for the requirement that individuals make an initial investment of product purchased to engage in the opportunity, (5) where it appears that people are only buying product in order to "buy into the deal," and (6) many statutes, although not all statutes, exempt from the term "prohibited consideration," the purchase of an at cost sales kit or demonstration materials.

The receipt of compensation unrelated to sales typically references: (1) payment of actual headhunting fees for finding other recruits, (2) a program in which sponsors make all of their compensation from override commissions from loading recruits with unnecessary product, (3) a program in which there is no evidence of sales outside the network of distributors.
