This May Be The Final Bellwether Case Trial For IN RE: FOSAMAX PRODUCTS LIABILITY LITIGATION, MDL No. 1789

(Posted by Tom Lamb at www.DrugInjuryWatch.com on January 8, 2013)

SUMMARY: The trial of *RHODA E. SCHEINBERG, Plaintiff*, vs. *MERCK & CO., INC.*, Defendant, Civil Action No.: 1:08-cv-4119, is scheduled to start on January 14, 2013 in the United States District Court for the Southern District of New York ("SDNY").

Notably, the *Scheinberg* lawsuit is the only federal court Fosamax MDL ONJ case currently set for trial. In a March 29, 2012 Order Judge Keenan later cast some doubt on whether there would be another Fosamax - ONJ trial after the *Scheinberg* case.

We expect, based on earlier Fosamax - ONJ trials, that it will be at least a month before we will get a jury verdict for the *Scheinberg v. Merck* trial.
