

Data Privacy + Cybersecurity Insider

Leveraging Knowledge to Manage Your Data Risks

CYBERSECURITY

[Joint Advisory Warns of Snatch Ransomware](#)

The FBI and CISA issued a [Joint Cybersecurity Advisory](#) “#StopRansomware: Snatch Ransomware” on September 20, 2023. The Advisory outlines the indicators of compromise and observed tactics, techniques, and procedures of Snatch so organizations can identify, mitigate, and respond to an attack using the Snatch ransomware variant. DATA PRIVACY

[Delaware Consumer Privacy Law Effective in 2025](#)

Last week, Delaware Governor John Carney signed the Delaware Personal Data Privacy Act into law. The bill goes into effect on January 1, 2025, and a public outreach effort will begin by July 1, 2024. The outreach effort will inform Delaware consumers of their rights under the new law and describe businesses' obligations. Delaware is yet another state to follow the trend of consumer privacy bills after the passing of the California Consumer Privacy Act in 2018. [Read more](#)

[Google Workspace's Privacy Policy Is Changing. Are You Ready?](#)

Google's Workspace for Education will require school admins to independently approve all integrated third-party applications students use. Users under 18 cannot use their Google accounts to access third-party applications without consent configured in user settings. Access will terminate automatically on October 1, 2023. Google Workspace for Education's Terms of Service does not cover third-party applications and may collect user information according to their privacy policies. Enabling third-party applications is as easy as having the account admin click "Confirm." However, the legal requirements may not be as simple. Schools with students K-12 and any extracurricular, daycare, and other childcare organizations may need parental consent before allowing their children to access these services. [Read more](#)

ARTIFICIAL INTELLIGENCE

[Governance of AI: Keeping You Informed](#)

We have been keeping a keen eye on the explosion of the use of artificial intelligence (AI) tools and generative AI. We are assisting clients with Governance Programs to formulate a process to evaluate the use of AI in their organizations, encourage safe and reliable use of AI tools by employees, evaluate appropriate uses of AI tools, and develop a process to mitigate legal issues that arise from the use of AI tools, including educating employees on the risks posed by the use of AI tools and how the organization is mitigating the risk. We find that many employees have no idea that their use of generative AI or other AI tools may have legal risks. [Read more](#)

DRONES

[FAA Extends the Compliance Deadline for Remote ID Rule to March](#)

Two more companies will conduct drone operations beyond visual line of sight (BVLOS). Recently, the Federal Aviation Administration (FAA) approved UPS Flight Forward and uAvionix for this type of operation in national airspace. UPS Flight Forward plans to conduct BVLOS drone operations for small-package delivery using a ground-based surveillance system. UPS Flight Forward will conduct these flights in North Carolina, Florida and Ohio. However, it may operate in other states from its Remote Operations Center (ROC) in Kentucky.

PRIVACY TIP #372

[Personal Preparedness for Massive Cyber-Attack](#)

It is scary to think of cyber warfare and how it may affect us. Most of us know how to prepare for natural disasters, but the story may be different when it comes to preparations for a massive cyber-attack. Are you prepared? Learn more in today's Privacy Tip. [Read more](#)
