Biosimilars Around the World

Last month's Supreme Court ruling in Sandoz v. Amgen brought greater certainty to both biosimilar applicants and originators in the United States. The July 2017 issue of Sterne Kessler's Global Patent Prosecution Newsletter includes information on worldwide biosimilar approvals and their global uptake, with a focus on the US, Europe, and Japan.

Sterne Kessler's Global Patent Prosecution
Newsletter is designed to help meet the needs of
biotech/pharmaceutical companies regarding global
patent prosecution strategies. For more information,
please contact Paul Calvo or John Covert. If you wish

You Can Dance If You Want To

By: Paul A. Calvo, Ph.D., Timothy J. Shea, and Paul A. Ainsworth

In borrowing a page from the '80s band "Men Without Hats," on June 12, 2017, the U.S. Supreme Court brought greater certainty for both biosimilar applicants and originator companies.

In Sandoz Inc. v. Amgen Inc., the Supreme Court ruled on two key issues relating to the "patent dance" under the Biologics Price Competition and Innovation Act (BPCIA).

Biosimilars in Europe

By: Paul A. Calvo, Ph.D.

Europe has led the way globally with respect to biosimilar medicines since 2005. In that year, the European Medicines Agency (EMA) issued regulatory guidelines for the development and assessment of biosimilars.

Their initial overarching biosimilar guidelines were recently updated in 2014.[1] Large portions of these EMA guidelines have been adopted by countries around the world, including: Australia, New Zealand, Canada, Japan, Korea, Singapore, South Africa and Switzerland.

Biosimilar Uptake and Patent Litigation in Japan

By: <u>Paul A. Calvo, Ph.D.</u>

Biosimilar uptake in Japan has been a bit mixed, but according to experts the volume shares of biosimilars suggests it could be a key market in years to come.[1]
