Biden FY25 HHS Budget Eliminates the Separate Interchangeability Designation for Biosimilars

By: [Robert S. Schwartz, Ph.D.](#)

On March 11, 2024, the White House released President Biden's FY 2025 Department of Health and Human Services (HHS) Budget in Brief, which outlines \$130.7 billion in discretionary funding for HHS. This change is an attempt to alleviate confusion about safety and efficacy differences between biosimilars and interchangeables that stems from having two separate categories of drugs.
