#### Growing Calls to Ban Chinese Owned TikTok App and Other Software Apps Considered to be National Security Threats

Chinese company ByteDance faces growing concerns from governments and regulators that user data from its popular short video-sharing app <u>TikTok</u> could be handed over to the Chinese government. The concern is based on China's national security laws, which give its government the power to compel Chinese-based companies to hand over any user data. More than 100 million Americans have reportedly downloaded this popular short video-sharing app on their devices. <u>Read more</u>

# New York City's Al Bias Law Has Been Postponed

The New York City Department of Consumer and Worker Protection will delay enforcement of Local Law 144, until April 15, 2023. The law requires companies operating in the City to audit automated employment decision tools for bias prior to use, and to post these audit reports publicly. The bill would also require that companies notify job candidates (and employees residing in the city) that they will be evaluated by automated decision-making tools and disclose the qualifications and characteristics that the tool considers. The Al bias law still has an effective date of January 1, 2023, and violations of it are be subject to a civil penalty. <u>Read more</u>
