

Worried People Will Find Out You Filed Bankruptcy?

By Lawrence 'D' Pew, [Arizona Bankruptcy Lawyer](#)

Bankruptcy filings are a matter of public record, however, no one will know about it unless they intentionally look up your record or you tell them.

It is highly likely only your attorney, his staff, and the actual court personnel will even know about it.

- *Last year over 1,400,000 people found a fresh start through filing bankruptcy.*
- *We have helped our clients eliminate over \$100,000,000 (that's \$100 Million) in debt!*

It's important you don't feel ashamed or embarrassed if you decide to file for bankruptcy protection. It is unfortunate and unfair that a stigma exists with anyone who files. The credit card companies pay billions of dollars every year to perpetuate these myths and stigmas.

The truth is bad things happen to good people every day! There's a reason why over 1.4 Million people file for bankruptcy every year and it's not because they are bad people! They are good people, just like you, who are looking for a solution to problems that have become overwhelming.

Bankruptcy provides honest, hard-working people like you with the fresh start they deserve. Here are some famous people who have all filed for bankruptcy:

Kim Basinger • Walt Disney • Don Johnson • Ulysses S. Grant

Abraham Lincoln • Perez Hilton • Toni Braxton • Lawrence Taylor

Zsa Zsa Gabor • Larry King • Wayne Newton • Burt Reynolds
