NOTE: This Chart covers those products and exchanges that are likely to be of greatest interest to market participants in the United States. It is not, therefore, intended to be exhaustive, and is presented without any representation or warranty as to its accuracy, completeness or timeliness. Transmission or receipt of this information does not create an attorney-client relationship with Katten Muchin Rosenman LLP, and the information herein should not be used or relied upon in regard to any particular facts or circumstances without first consulting a lawyer. This Chart does not express any opinion as to the potential application of the laws of any jurisdiction other than the United States. Questions regarding the permissibility of trading in products that are not included in this Chart should be addressed to James D. Van De Graaff at +1.312.902-5227, Kenneth M. Rosenzweig at +1.312.902-5381, Kevin M. Foley at +1.312.902-5372, Christian B. Hennion at +1.312.902-5521 or Blake J. Brockway at +1.312.902-5438.

**“Eligible U.S. Institution”:** As used in this Chart, in accordance with SEC no-action letters, the term “Eligible U.S. Institution” means, in general, a U.S. Person that (i) is a “qualified institutional buyer” as defined in Rule 144A(a)(1) under the Securities Act of 1933, and (ii) has had prior actual experience in trading U.S. listed options contracts. For information regarding working definitions of “U.S. Person” as that term is used in this Chart, please contact Katten Muchin Rosenman LLP.

<sup>1</sup> [Reserved]

<sup>2</sup> The CFTC No-Action Letter also applies to BM&F Bovespa’s “Ibovespa Rollover” and “Forward Points on the Ibovespa” transactions.

<sup>3</sup> The index is included in the CFTC’s and SEC’s joint order dated May 31, 2002 extending the exclusion of such index from the definition of “narrow-based security index” under the Commodity Exchange Act and Securities Exchange Act of 1934 beyond its expiration date of July 11, 2002 (the “Joint Order”). Foreign futures contracts or options on futures contracts on “narrow-based securities indexes” may not be offered or sold to U.S. Persons without the CFTC and SEC first developing joint regulations, which has not yet been done. Accordingly, the Joint Order effectively allows the stock index futures contracts and options on futures contracts that are based on the security indexes included in the Joint Order, which were granted no-action relief by the CFTC prior to the enactment of the Commodity Futures Modernization Act (“CFMA”) on December 21, 2000, to continue to be offered and sold to U.S. Persons after July 11, 2002, the date that the exclusion set forth in the CFMA was to expire.

<sup>4</sup> These products may be eligible for clearing through the Bclear service offered by Euronext LIFFE (“LIFFE”). Bclear allows members to submit an option contract on a non-U.S. security that has been negotiated and completed as an over-the-counter (“OTC”) transaction so that LIFFE may replace the OTC transaction with an equivalent LIFFE options contract. LIFFE members that intend to offer or sell such products to U.S. persons must satisfy the following conditions: (i) Bclear services may only be offered to a U.S. person that qualifies as an Eligible U.S. Institution (see above), (ii) the LIFFE member must obtain and maintain certain representations from the customer, and (iii) before transacting, and on an annual basis thereafter, the LIFFE member must file a declaration with LIFFE. For additional information on these conditions, see [LIFFE London Notice No. 3732](#). LIFFE maintains a list of eligible options, which includes (1) LIFFE individual equity options based on the securities of non-U.S. issuers and (2) LIFFE index options based on indices that contain no component securities of U.S. issuers. The list of eligible options may be accessed [here](#).

<sup>5</sup> The SEC also has approved for Eligible U.S. Institutions all options on individual German-, Swiss-, Finnish-, Dutch-, Italian- and French-issued equities that are now or that in the future may be listed on Eurex. Equities issued in any other country that are listed on Eurex have not been approved at this time.

<sup>6</sup> Eurex offers a KOSPI product that Eurex describes as a daily futures contract that expires every night, with any net open positions at the end of trading resulting in the establishment of a corresponding position in the Korean Exchange’s KOSPI 200 Options (with strike prices, expiries, put/call and premiums) at the start of the next trading session on the Korean Exchange.

<sup>7</sup> Pursuant to Eurex Circular 281/11, the Dow Jones STOXX 600 Personal & Household Goods Sector will no longer be tradable on Eurex trading terminals in the U.S. after the close of business on February 29, 2012. The previously issued no-action letter approving such product for sale to U.S. Persons (February 6, 2008 CFTC No-Action Letter issued to Eurex) has not been withdrawn.

<sup>8</sup> Pursuant to Eurex Circular 260/11, the Dow Jones Euro STOXX Banking Sector is no longer tradable on Eurex trading terminals in the U.S. The previously issued no-action letter approving such product for sale to U.S. Persons (April 2, 2002 CFTC No-Action Letter issued to Eurex) has not been withdrawn.

<sup>9</sup> Additional restrictions apply to the trading of these products by U.S. Persons.

<sup>10</sup> [Reserved]

<sup>11</sup> The SEC also has approved for Eligible U.S. Institutions all options on individual Swedish-, Norwegian- and Danish-issued equities that are now or that in the future may be listed on the EDX London exchange. Equities issued in any other country that are listed on the EDX London Exchange have not been approved at this time. Note: EDX London Exchange has been acquired by the Turquoise Exchange.

<sup>12</sup> The RDX USD Index futures and options contracts have not been approved for sale to U.S. Persons. The CFTC approved a similar Eurex contract (RDXxt USD – RDX Extended Index futures contract) for sale to U.S. Persons in a no-action letter issued on March 6, 2008, but Eurex subsequently delisted the contract.

<sup>13</sup> The Istanbul Stock Exchange (“ISE”) is now part of the Borsa Istanbul (“BIST”). As such, references to ISE 30 have been changed to BIST 30 on VIOP’s trading platform and the CFTC’s website.

<sup>14</sup> The London Stock Exchange offers options on Russian equity products through its International Order Book. Providing all applicable conditions are met, Eligible U.S. Institutions may trade these options through the Bclear service offered by Euronext LIFFE. See Footnote 4.
