# FDD Suggests Space Systems be Designated as Critical Infrastructure

The Foundation for Defense of Democracies (FDD) issued a Report late last week entitled *Time to Designate Space Systems as Critical Infrastructure* which cogently outlines the risks associated with space systems (which are basically the same as any other electronic system) in order to designate space systems as the seventeenth critical infrastructure sector. <u>*Read more*</u>

# Use of Generative AI Poses Risk to Companies

Many companies are exploring the use of generative artificial intelligence technology ("AI") in day-to-day operations. Some companies prohibit the use of AI until they get their heads around the risks. Others are allowing the use of AI technology and waiting to see how it all shakes out before determining a company stance on its use. And then there are the companies that are doing a bit of both and beta testing its use. <u>*Read more*</u>

# Colorado Prepares to Regulate Al and Big Data in Insurance

Colorado is poised to become one of the first states to regulate how insurers can use big data and Al-powered predictive models to determine risk for underwriting. The Department of Insurance recently <u>proposed new rules</u> that would require insurance companies to establish strict governing principles on how they deploy algorithms and how they submit to significant oversight and reporting demands. <u>*Read more*</u>

#### PRIVACY TIP #360

#### Ethical Issues When Using AI Technology

There are a number of issues that have been presented in literature regarding the use of AI tools, one of which centers around ethical concerns. This week's Privacy Tip will help you start researching how the use of AI technology can affect you or your employer so you stay up to speed on the risks. <u>*Read more*</u>
