<b>France</b>	<p><b>Emergency law</b> of 23 March 2020 to deal with the COVID-19 epidemic: A state of health emergency is declared for two months, i.e. until May 24, 2020.</p> <p>The whole of the French population is in quarantine since March 17, 2020, and can only leave their houses for essential reasons, including buying food.</p> <p><b>Teleworking is becoming the norm for all jobs that allow it.</b></p> <p><b>For employees who cannot work from home, the employer must provide proof based on professional and significant reasons.</b></p> <p>Any infringement of this rule is punished by a fine of €135, which can be increased up to €200 in case of another infringement within 15 days. In case of four infringements within four weeks, it is subject to a six-months' imprisonment and a fine of up to €3,750.</p> <p>Moreover, for workers on site, according to the Ministry of Labor, the following <b>measures must be respected:</b></p> <ul style="list-style-type: none"> <li>Keeping a safe distance (at least 1 meter) and simple but effective measures must be followed (washing your hands, disposable tissues,</li> </ul>	<p>Supermarkets (and all food stores), pharmacies, banks, funeral parlors, hardware stores and petrol stations remain open.</p> <p>Restaurants can sell takeaway food only.</p> <p>Pick-up and delivery activity is possible for retail and shopping malls.</p>	<p>Non-essential shops (e.g. retail outlets, bars, restaurants, leisure activities, hairdressers) are closed at least until May 11, 2020.</p> <p>Bars and restaurants will stay closed after this date but other non-essential shops might re-open.</p>	<p><b>Ordinance n°2020-306 of 25 March 2020, relating to the extension of time limits during the period of the public health emergency and the adaptation of procedures during this period, provides for certain contractual arrangements that affect landlords.</b></p> <p>Periodic penalty payments, penalty clauses, termination clauses and forfeiture clauses, whose purpose is to punish failure to fulfil an obligation within a given period, are deemed not to have taken effect during the legally protected period i.e. up to more than one month from the end of the state of public health emergency. They shall then take effect one month after this period, if the debtor has not fulfilled its obligation by that time.</p> <p>This extension of the expired time limits does not constitute a cause for suspension, interruption or postponement of the starting point of the time limits for taking action. It is merely a postponement of the term coupled with an additional period of time to fulfil the obligation.</p> <p>Thus, by adopting this order, the government is giving all debtors a grace period that allows them not to perform their obligation without penalty, provided, however, that they regularize their obligation</p>	<p>On the basis of the Law No. 2020-290 of March 23, 2020 as an emergency response to the Covid 19 epidemic, the Government has issued several orders and decrees allowing in particular the following measures:</p> <p><b>1. Impose to employees to take paid vacation days</b></p> <p>The Order No. 2020-323 of March 25, 2020 allows employers, subject to the existence of a branch agreement or an in-house collective agreement to (i) impose the employees to take paid vacation days and to (ii) change the vacation dates</p> <p><u>Maximum:</u> up to 6 working days</p> <p><u>Minimum notice period:</u> 1 day</p> <p><u>Deadline for imposing the taking of paid vacation days :</u> December 31, 2020</p> <p><b>2. Impose to employees to take rest days (RTT days)</b></p> <p>If employees benefit from rest days (RTT days) to compensate a working time which exceeds the 35 hours per week, or which are granted to employees who are working under a fixed number of hours/days per year, the Order No. 2020-323 of March 25, 2020 allows employers to (i)</p>	<p><b>VAT:</b> There is no deferral of the deadline for making returns, but it is possible to make an estimate for VAT return (in March and April) with a maximum margin of error of 20%. In case of a decrease of turnover, it is possible to pay only 80% of the declared amount in February. If the activity has decreased by 50% or more, it is possible to pay only 50% of the declared amount in February. There is a possibility to deduct the input VAT due on the production of protections for healthcare professionals and population (even if the product is sold at cost ). e.g.: masks, hands sanitizers.</p> <p><b>Postponement of direct taxes and social contribution:</b> Deferral of direct taxes and social charges (up to three months) for March and April.</p> <p><b>Other measures:</b> Acceleration of repayment for claims on the government (e.g. tax credit, VAT). There is a possibility to claim the repayment due on 2020 (after offsetting the 2019 CIT).</p>	<p><b>Prohibition of distributions:</b> Dividends and shares buybacks are prohibited in case of government support (direct taxes and social contribution deferral). This prohibition only concerns the largest corporations/ groups (5,000 employees in France or a turnover of €1.5 billion in France). A group is made up of chains of 95% ownership. The commitment to freeze distributions covers the whole group. Some exceptions are provided. In case of non-compliance, companies have to refund the government, and penalties will apply (5% of the subsidy and 0.2 % interest per month).</p> <p><b>25% reduction of directors pay :</b> Corporations must reduce directors' pay by 25 %. However, at the present time, we do not know which corporations are concerned. According to early rumors, this measure only concerns the corporations that benefit from the partial unemployment measures.</p>

These wages are maximums and may not exceed € 9,538 per month per employee (maximum twice the maximum daily social security wages). <i>UWV</i> will pay an advance compensation of 80% of the requested amount. This means a suspension of payment over three months, with a minimum of 50%, but where necessary it could mean 75 or 100% suspension (if feasible for the landlord, considering proportionality in size and capacity). The agreement is endorsed by the Dutch Ministry of Economic Affairs. The agreement emphasizes that banks are extending arrangements in order to create temporary liquidity and the minister calls upon real estate funders to do the same.</p>

These can be applied due to <i>force majeure</i> or objective grounds (e.g. economic, technical, organizational and/or productive reasons).</p> <p>These procedures could be extended up to June 30; this is, even if the lockdown and emergency state has ceased. Some other measures have been adopted for employees, including the right to reduce the working time and salaries, and home- based work.</p> <p>The unemployment benefits will be maintained during the extension of the ERTE up to 30 June.</p> <p>The exemption on social security contributions for the ERTE based on <i>force majeure</i> will also be extended, but the amount will be reduced depending on the company’s workforce.</p>	<p>No specific tax rebates on the retail or real estate sector have been approved.</p> <p>In general terms, the obligations to file and pay tax returns remain unchanged except for certain SMEs and self-employed individuals. UK	<p><b>No state of emergency</b></p> <p>Government Guidance announced on 11 May 2020 remains in place with respect to people going to work. I.e. All workers who cannot work from home should travel to work if their workplace is open. As soon as practicable, workplaces should be set up to meet the new COVID-19 secure guidelines. In particular, workplaces should, where possible, ensure employees can maintain a two-metre distance from others, and wash their hands regularly.</p> <p>At all times, workers should follow the guidance on self-isolation if they or anyone in their household shows coronavirus symptoms. Stay-at-home orders were issued by local and state governments as a measure to prevent the spread of the virus. As of May 20, 2020, all states but Illinois and New Jersey have begun reducing the stay-at-home measures.</p> <p>Although President Trump has unveiled <a href="#">Guidelines</a> for “Opening Up America Again,” reopening in the US is being done at the state-level. Please see the <a href="#">US COVID-19 50-State Tracker</a> for state-specific and additional local information.</p>	<p>States generally determine which businesses are allowed to remain open during the COVID-19 pandemic.</p> <p>Businesses are almost universally reopening under restrictions, such as allowing fewer customers, requiring workers and customers to wear masks, and enforcing social distancing. Even as governors lift orders, stricter local orders may remain in place. Accordingly, this is being done selectively on the state level.</p> <p>For additional information, please see <a href="#">The CARES Act: Retirement and Other Employee Benefit Plan Changes</a>.</p>	<p>The CARES Act includes several tax provisions to address the economic hardships caused by the spread of the coronavirus.
