

Santa Clarita Injury Attorneys - Law Office of Robert Mansour

I Don't Want To Sue Anyone!

Hello, my name is Robert Mansour, and I am a **personal injury lawyer for Santa Clarita**, Newhall, Castaic, Stevenson Ranch, Valencia, Saugus, Canyon Country, and surrounding areas.

Some of my clients are "reluctant" to bring any kind of lawsuit. They come to my office for a consultation and explain, "Look, I don't want to cause any kind of trouble. I even feel funny about coming to you."

First of all, if you've been involved in a serious car accident in Santa Clarita, Newhall, Castaic, Stevenson Ranch, Valencia, Saugus or Canyon Country or any other city, there is nothing to feel funny about. If someone was negligent and caused you injury, you don't need to be super-polite to your own detriment. There is nothing to be ashamed of...if you were injured, you deserve compensation.

However, it is natural to sometimes feel that way. An experienced personal injury attorney is not about revenge or "sticking it" to anyone! A good lawyer is honest and works for people to secure what law allows when clients have been injured by someone else's carelessness. Remember it is what the law allows! We are working within the system. The system was designed to protect victims.

Most personal injury lawyers work hard to make their clients happy and to recover as much as they can for them. Of course, a good lawyer will also set realistic expectations. They should not promise you the moon just to get your case.

I once had a client who didn't "want to sue anybody!" It was basically "against his religion" to bring any kind of claim against anyone. He had fallen due to the negligence of another, and he re-tore his rotator cuff as a result. Now he had a serious rotator cuff injury. Well, now he is facing surgery as a result of this incident, and his shoulder is causing him tremendous pain on a daily basis. He was supposed to be enjoying his retirement but now he is in great pain every day. Because he tried to "tough it out" and didn't want to "bother anyone" with a claim, he made no mention of the accident to his doctors. The only person who will suffer from that mistake is him. Now the insurance company for the guilty party is denying the claim, arguing the accident never happened because my client did not mention it to his doctors. Truth is my client was "old school" and didn't want to report his injury claim because he didn't want to be "a bother." Well, now he needs rotator cuff surgery and the only one who suffered from his actions is himself.

If you have an accident in Santa Clarita, Newhall, Castaic, Stevenson Ranch, Valencia, Saugus or Canyon Country or any other city, don't be ashamed to bring a claim. That is why responsible people carry insurance - to compensate those they inadvertently injure! That's exactly why you should bring a claim if you have an honest injury. Keep in mind you are not "suing" anyone immediately anyway. Most

of the time, your case will be settled during the pre-litigation phase, well before any lawsuit has been filed.

Rob Mansour is a **lawyer serving Santa Clarita**, Valencia, Stevenson Rancy, Canyon Country, Newhall, and Castaic for your personal injury case. He has over 16 years of experience. He used to work for the insurance companies, and now he works for you!
