Re: SB 1366 and AB 2291

Dear Senator Correa and Assembly Member Jones-Sawyer:

We are honored to inform you and your colleagues that for the first time in five years, the undersigned tribal governments are united in support of the attached unified language that would authorize intrastate Internet poker in the State of California. As you know, this journey has been long and difficult, but the challenges posed by the Internet demand that we harness rather than cede the technology of the future for California and for our tribal communities.

In achieving consensus for Internet poker, we reaffirm our commitment to the longstanding principle of limited gaming that has guided California's public policy toward gaming. As importantly, we recommit ourselves to realizing legislation that

protects children and the vulnerable, creates jobs for Californians, provides additional revenues for State services, and safeguards consumers and the vulnerable from dishonest and unsuitable operators.

We deeply appreciate your leadership and guidance throughout this process, and we look forward to working with you and your colleagues to scrutinize this legislation and ensure our shared public policy goals are achieved.

UNIFIED BILL

An act to add Chapter 5.2 (commencing with Section 19990.101) to Division 8 of the Business and Professions Code, relating to gambling, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

BILL TEXT

The people of the State of California do enact as follows:

SECTION 1.

Chapter 5.2 (commencing with Section 19990.101) is added to Division 8 of the Business and Professions Code, to read:

CHAPTER 5.2. The Internet Poker Consumer Protection Act of 2014

Article 1. Title, Legislative Declarations, and Statement of Legislative Intent

19990.101

This chapter shall be known and may be cited as the Internet Poker Consumer Protection Act of 2014.

19990.102.

The Legislature hereby finds and declares all of the following:

- (a) Since the development of the Internet, Web sites offering gambling have raised consumer protection and enforcement concerns for federal and state governments as these Web sites are often operated by unknown persons located in many different countries, subject to little or no oversight, and have sought to attract customers from the United States.
- (b) Californians participate in illegal online gambling on unregulated Internet Web sites every week. Neither federal nor California laws provide any consumer protections for California players. California players assume all risks, any negative social or financial impacts are borne by the citizens of California, and the revenues generated from online gambling are being realized by offshore operators and do not provide any benefits to the citizens of California.
- (c) The presence, operation, and expansion of offshore, unlicensed, and unregulated Internet gambling Web sites available to Californians endanger Californians because the current Internet gambling Web sites operate illegally and without regulation as demonstrated by criminal

investigations of some Internet gambling purveyors, and questions have arisen about the honesty and the fairness of the games played on Internet gambling Web sites as well as the true purpose for, and use of, proceeds generated by these unregulated Internet gambling Web sites. In addition, some of the unlicensed and unregulated Internet gambling activity interferes with rights Californians preserved to federally recognized tribal governments when amending the state's Constitution, with that amendment providing federally recognized tribes the sole and exclusive right to engage in slot machine and house-banked casino-style gaming in California. California, thus, has a state interest in authorizing and regulating legitimate Internet poker and in ensuring that those activities are consistent with existing public policy regarding the playing of poker games within the state. The public interest will be best served by requiring that those entities who desire to own or operate Internet poker web sites within the state continue to comply with the existing standards and rigorous scrutiny that must be met in order to qualify to offer poker games within the state.

(d) These rights were separately guaranteed in 1999 and at various times thereafter, when the state negotiated and entered into compacts with tribes pursuant to the federal Indian Gaming Regulatory Act of 1988 (IGRA), under which signatory tribes possess the exclusive right within the state to operate "gaming devices." "Gaming device" is defined in those compacts to include any electronic, electromechanical, electrical, or video device that, for consideration, permits: individual play with or against that device or the participation in any electronic, electromechanical, electrical, or video system to which that device is connected; the playing of games thereon or therewith, including, but not limited to, the playing of facsimiles of games of chance or skill; the possible delivery of, or entitlement by the player to, a prize or something of value as a result of the application of an element of chance; and a method for viewing the outcome, prize won, and other information regarding the playing of games thereon or therewith. Internet gaming necessitates the use of an electronic device, whether in a private or a public setting, to participate in a game. The authorization of internet gaming could, therefore, constitute a breach of those compacts and jeopardize the payments being made to the state. As such, the Legislature recognizes that the forms of internet gaming authorized to be played within the state must be strictly limited and that the authorization of any form of internet gaming, with the exception of poker as described in this Chapter, would violate compact exclusivity. This includes, but is not limited to, any slot or casino-style game.

(e) Tribally owned and operated casinos have contributed to local economies, generated tens of thousands of jobs for Californians, and provided hundreds of millions of dollars in revenues for the state since the advent of Indian gaming, and are entitled to the full protection of the laws of this state. As such, the state is presently engaged in regulatory and enforcement efforts to combat the rise of illegal gambling activity that threatens not only protected rights, but the health and welfare of all Californians.

(f) In October 2006, Congress passed the SAFE Port Act (Public Law 109-347), to increase the security of United States ports. Embedded within the language of that act was a section entitled

the Unlawful Internet Gambling Enforcement Act of 2006 (UIGEA), which prohibits the use of banking instruments, including credit cards, checks, or fund transfers, for interstate Internet gambling. UIGEA includes exceptions, including, but not limited to, one that permits individual states to create a regulatory framework to enable intrastate Internet gambling, provided the bets or wagers are made exclusively within a single state whose state laws or regulations comply with all of the following:

(1) Contain certain safeguards regarding those transactions, including both of the following:

(A) Age and location verification requirements.

(B) Data security standards designed to prevent access to minors and persons located outside of that state.

(2) Expressly authorize the bet or wager and the method by which the bet or wager is made.

(3) Do not violate any federal gaming statutes, including all of the following:

(A) The Interstate Horseracing Act of 1978.

(B) The Professional and Amateur Sports Protection Act.

(C) The Gambling Devices Transportation Act.

(D) IGRA.

(g) State authorization to operate Internet poker consistent with federal law, and heightened regulation and enforcement regarding Internet gambling activity that goes beyond poker, provides California with the means to protect its citizens and consumers under certain conditions by providing a framework to ensure that, among other things, the state is not subject to an unnecessary and unprecedented expansion of gambling, minors are prevented from gambling, citizens participating in Internet poker activities are protected, and the state is not deprived of income tax revenues to which it would otherwise be entitled from these activities.

(h) The Legislature recognizes that the regulation of gambling activities within the state's jurisdiction is of particular concern to the public interest, particularly with the advent of the Internet, and inherent dangers associated with online gambling activities, and accordingly recognizes the need to protect Californians from an unprecedented expansion of gambling activities within the state. This chapter is a vehicle to generate additional resources to protect Californians from this increased illegal Internet gambling activity.

(i) The state currently maintains and implements substantial regulatory and law enforcement efforts to protect thousands of Californians who gamble and play, among other things, real-money poker in licensed California card rooms.

(j) Federally recognized Indian tribes in California offer real-money poker, including electronically aided poker, on their Indian lands as a “class II” game under IGRA.

(k) While the state, federal government, and tribal governments exercise regulatory authority over various real-money poker games offered in California, none of those entities presently provide licensing requirements, regulatory structure, or law enforcement tools to protect millions of Californians who play the same games daily for money on the Internet.

(l) In order to protect Californians who gamble online, allow state law enforcement to ensure consumer protection, and ensure compliance with the California Constitution and negotiated compacts and secretarial procedures, it is in the best interest of the state and its citizens to authorize, implement, and create a legal system for intrastate Internet gambling that is limited to the game of poker.

(m) The California Gambling Control Commission and the Department of Justice, in conjunction with other state agencies and tribal governmental gaming regulators, have the expertise to issue licenses to conduct intrastate Internet poker to existing operators of regulated gaming that are otherwise eligible to conduct real-money poker games in California. Further, strict suitability standards must be imposed on those persons and entities seeking to work for or provide services to licensed operators in order to ensure that the highest level of integrity is maintained.

(n) The state also possesses a legitimate interest in protecting the integrity of state-authorized intrastate Internet poker by licensing only those entities that are otherwise eligible to offer real-money poker games within the state that have significant experience operating in a regulated land-based gaming facility environment. The state’s interests are best met, therefore, by licensing only those entities in California that have experience operating card rooms and tribal gaming facilities that are currently permitted to offer live real-money poker games and are in good standing with the appropriate state, federal, and tribal regulatory agencies.

(o) This chapter will permit a qualified card room to obtain a license from the state to operate poker games via the Internet for players within the jurisdiction of California. In addition, the chapter will permit a qualified federally recognized California Indian tribe to obtain a license from the state to operate poker games via the Internet for players physically located within California.

(p) Participation by tribes will further the interests of the state because tribes have significant experience operating and regulating real-money games.

(q) The authorization of intrastate Internet poker pursuant to this chapter does not violate any tribal-state compact or the California Constitution. Application of UIGEA in California, as set forth in this chapter, also does not violate federal Indian law by impinging upon protected tribal sovereignty. Accordingly, nothing in this chapter shall alter, diminish, or impact the rights and obligations of tribes in existing tribal-state compacts or secretarial procedures approved pursuant

to IGRA, or require that those compacts be renegotiated. At the same time, a tribal licensee does not relinquish any rights under its compact with the state by virtue of participating in intrastate Internet poker pursuant to this chapter, which is intended to respect the regulatory obligations and responsibilities of state, tribal, and federal authorities.

19990.103. Legislative Intent

It is the intent of the Legislature to create a licensing and regulatory framework and enforcement mechanisms to do all of the following:

- (a) Ensure that authorized Internet poker games are offered for play only in a manner that is consistent with federal and state law.
- (b) Ensure the state possesses sufficient resources to enforce prohibitions of illegal gambling activity, in part, by establishing a special regulatory enforcement fund and by empowering the department to retain a portion of receipts collected from illegal operations and, as necessary, receipts collected in accordance with this chapter.
- (c) Authorize and direct the commission to issue a license to certain existing operators of card rooms and gaming facilities in California, at which regulated real-money poker games may be offered, that meet the eligibility requirements and timely submit the required application and registration fees.
- (d) Ensure that each licensee complies with applicable laws and regulations.
- (e) Grant power to the state agencies authorized in this chapter to oversee the operations of each licensee, including the operations of those licensed by a Tribal Regulatory Agency under this chapter whose licenses and permits have been reviewed and approved by the commission in accordance with this chapter, and to enforce the provisions of this chapter to ensure that the interests of the state and registered players are protected.
- (f) Establish a process that includes a background investigation of owners, officers, directors, and key employees and requires that each employee of a licensee receives all necessary work permits from the state and coordinate that investigation with any suitability review undertaken by a participating tribe's gaming regulatory authority.
- (g) Ensure that the state is able to collect income tax revenues from registered players participating in Internet poker activity in the state.
- (h) Distribute regulatory fees collected by the state from each licensed operator to the Internet Poker Fund, as established in Section 19990.801, which shall be administered by the Controller, subject to annual appropriation by the Legislature for the following:
 - (1) The actual costs of license oversight, consumer protection, state regulation, and problem gambling programs.

- (2) Other purposes related to this chapter as the Legislature may decide, including, but not limited to, enforcement efforts related to illegal Internet gambling activities.
- (i) Create systems to protect each registered player's private information and prevent fraud and identity theft.
- (j) Ensure that registered players are able to have their financial transactions processed in a secure, timely, and transparent fashion.
- (k) Require that each licensed operator provide registered players with accessible customer service.
- (l) Require that each licensed operator's Internet poker Web site contain information relating to problem gambling, including a telephone number that an individual may call to seek information and assistance for a potential gambling addiction.
- (m) Ensure that the licensed operator maintains responsibility for the Internet poker business and is not serving as a façade for an entity not eligible to be a licensed operator. The Internet poker Web site shall identify who is the actual licensed operator to ensure protection of players.
- (n) Create an express exemption from disclosure, pursuant to the California Public Records Act under subdivision (b) of Section 6253 of the Government Code, that exempts from public disclosure proprietary information of a license applicant or a licensee in order to permit disclosure of confidential information to state agencies while achieving the public policy goals of deploying secure systems that protect the interests of both the state and players.
- (o) As a matter of statewide concern, preempt any city, county, or city and county from enacting any law or ordinance regulating or taxing any matter covered in this chapter.

19990.401

(a)(1) Within 180 days after the effective date of this chapter, the commission, and any other state agency with a duty pursuant to this chapter, shall adopt regulations pursuant to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code), in consultation with the department and federally recognized California Indian tribes, to implement this chapter, and to facilitate the operation of authorized poker Web sites and expedite the state's receipt of revenues in compliance with this chapter. The initial adoption, amendment, or repeal of a regulation authorized by this section is deemed to address an emergency, for purposes of Sections 11346.1 and 11349.6 of the Government Code, and the commission and those other state agencies are hereby exempted for that purpose from the requirements of subdivision (b) of Section 11346.1 of the Government Code. After the initial adoption, amendment, or repeal of an emergency regulation pursuant to this section, the commission and those other state agencies shall not request approval from the Office of Administrative Law to readopt the regulation as an emergency regulation pursuant to Section 11346.1 of the Government Code, but shall promulgate permanent regulations in accordance with all applicable law.

(2) The regulations adopted by the commission shall at a minimum address the following:

- (A) Underage gambling and problem gambling
- (B) Resolution of player disputes and complaints
- (C) Gaming system technical standards and practices
- (D) Approval of games and game rules
- (E) Hardware and software standards and compliance
- (F) License and work permit issuance and processes
- (G) Suitability standards and determinations
- (H) Temporary, provisional and emergency approvals
- (I) Effect of receiverships, bankruptcy, insolvency, inheritance, and trusts affecting ownership of a licensee
- (J) Appeals from adverse decisions

(b)(1) Each state agency with a duty pursuant to this chapter shall identify a contact person at that agency and describe the responsibility of the contact with respect to the state agency's duty.

(2) Any notice provided by a licensee to a state agency pursuant to this chapter shall be addressed to the contact identified by the state agency pursuant to paragraph (1).

(3) Unless otherwise provided by this chapter, notice by a licensee to the state shall be deemed effectively given upon personal delivery, three days after deposit in the United States mail by certified or registered mail, return receipt requested, one business day after its deposit with any return receipt express courier, prepaid, or one business day after electronically confirmed transmission by facsimile.

19990.402.

(a) Authorized Internet poker games may only be offered by entities licensed under this chapter. An eligible entity seeking to offer authorized Internet poker games shall apply to the commission for an operator license. The commission shall require an application processing fee sufficient to cover the reasonable costs associated with the issuance of the license.

(b) Employees of the licensed operator must undergo suitability review and obtain work permits pursuant to Article 6. Owners, officers, and directors of licensed operators must also undergo suitability review and obtain work permits pursuant to Article 6. The commission may refuse to issue, suspend, or revoke a license to a licensed operator who fails to comply with this requirement.

(c) In order to ensure that licensed operators are not mere facades for unlicensed, unqualified, or undisclosed interests, an applicant for an operator license pursuant to this chapter shall provide documentation establishing that if the license is granted, the license applicant will be able, through its own net position or through credit extended directly to the applicant and with full recourse to it, by a federal or state chartered financial institution not involved with the core functions of the authorized poker Web site, that is entirely secured by an equivalent amount of its own net position, to pay the license deposit required by subdivision (a) of Section 19990.519. In addition, the commission shall require licensed operators to submit regular financial reports to the department establishing that they meet financial viability requirements as determined by the commission. The commission may terminate a license if the operator fails to submit the required reports or meet the financial viability requirements.

(d) An applicant for an operator license pursuant to this chapter that is a federally recognized California Indian tribe shall include with its license application a limited waiver of the applicant's sovereign immunity exclusively to the state and no other party solely for the limited purpose of enforcing this chapter and any regulations promulgated thereunder, and with regard to any claim, sanction, or penalty arising therefrom against the licensed operator by the state, and for no other purpose.

(e) The commission shall issue an operator license to an applicant determined by the commission to qualify as an eligible entity within 90 days of receiving an application, if the applicant submits a completed application form and pays the required registration fee within the time frame specified in subdivision(a).

(f) The state may only issue operator licenses to eligible entities. Any of the eligible entities may jointly apply for an operator license, either as a consortium or by forming an entity comprised entirely of eligible entities. Each eligible entity may have an interest in only a single operator license.

(g) An operator license shall be issued for a term of 10 years. Subject to the power of the commission to revoke, suspend, condition, or limit any license, as provided in this chapter, a license shall be automatically renewed every 10 years thereafter upon application. Failure of a licensed operator to file an application for renewal may be deemed a surrender of the license.

(h) Initial operator licenses issued pursuant to this section shall all take effect on the same date, which date shall be one year after this chapter becomes effective, absent good cause for all of those licenses take effect in unison on a subsequent date, as determined by the commission.

(i) A licensed operator may cease its operations after providing the department with a 90-day advance notice of its intent and a statement explaining its reasons for doing so, which may include the fact that continuing to operate the authorized poker Web site is commercially infeasible. In response to that notice, the state may file an action in the Superior Court of the County of Sacramento as it deems necessary to protect any state interests, including, but not limited to, the interests of registered players.

19990.403.

(a) A licensee's employees in direct contact with registered players shall be required to be physically present in the state. However, the licensee shall have discretion to use the expertise of personnel not physically present in the state when necessary to protect registered players and state interests for the purposes of diagnosing and addressing technological problems, investigating fraud and collusion, and developing and supervising software and configuration changes.

(b) All facilities, bank accounts, and accounting records of the licensee related to authorized Internet poker shall be located in California, except for redundant servers and except as may be permitted by the commission for service providers, if access to and jurisdiction over the relevant facilities, bank accounts and accounting records are ensured. The licensee shall have discretion to use the expertise of personnel not physically present in the state when necessary to protect registered players and state interests, for the purposes of diagnosing and addressing technological problems, investigating fraud and collusion, and developing and supervising software and configuration changes.

(c) In addition to any other confidentiality protections afforded to license applicants, the state and its agencies shall treat the proprietary information of a license applicant as confidential to protect the license applicant and to protect the security of any prospective authorized poker Web site. This chapter does not prohibit the exchange of confidential information among state

agencies considering a license application. The confidentiality provisions of this chapter exempt proprietary information supplied by a license applicant to a state agency from public disclosure consistent with subdivision (b) of Section 6253 of the Government Code.

(d) A license applicant shall submit to the commission, together with its application, an application processing fee as specified in subdivision (a) of Section 19990.402. All moneys collected by the state pursuant to this subdivision shall be deposited into the Internet Poker Fund.

19990.404.

(a) An entity seeking to act as a service provider shall apply to the commission for a service provider license, and obtain a service provider license, before providing goods or services to a licensed operator in connection with the operation of an authorized Internet poker Web site.

(b) The department shall review the suitability of an applicant for a service provider license. The commission shall require that the applicant for a service provider license pay an application processing fee sufficient to cover the reasonable costs associated with the issuance of the license.

(c) The department may establish a process to conduct a preliminary determination of suitability based on a partial investigation. A partial investigation is intended to screen out applicants that do not meet the suitability requirements of this chapter. A partial investigation shall include fingerprint-based state and federal criminal history checks and clearances, and inquiries into various public databases regarding credit history and any civil litigation. A partial investigation shall also include a review of the service provider's financial status, which shall include the submission of a report prepared by a department-approved forensic accounting, audit, or investigative firm, in a format developed by the department, and at the service provider's expense. The report shall include the financial information necessary for the department to make a preliminary determination of suitability. The department may specify additional requirements regarding the contents of the report and any other financial information or documentation required to be submitted. A full investigation shall be conducted of only those service provider that pass the partial investigation and that will undergo a full investigation pursuant to subdivision (c). Those service providers that do not pass the partial investigation may appeal the decision to the commission.

(d) Before issuing a service provider license to an applicant, the department shall conduct the full investigation required by this section, which shall include all of the following persons:

(1) All officers of the license applicant.

(2) The owner or owners of the following:

(A) The license applicant.

(B) Any corporate affiliate of the license applicant.

(C) Any persons otherwise providing goods to, or performing services for, the license applicant related to core functions.

(D) Any person deemed by the department to have significant influence over the license applicant or its service providers or their respective operations.

(3) In the case of a tribe or a wholly owned tribal entity that is a service provider, the investigation shall be limited to the business officers of the tribal entity that will serve as the service provider.

(e) A full investigation shall include a review and evaluation of the service provider's qualifications and experience to provide the services anticipated, which shall include the required submission of a report prepared on each service provider by an outside firm contracted and supervised by the department, in a format developed by the department, and at the service provider's expense. The report shall include information necessary for the department to make a determination of suitability, as specified in regulation, consisting of, but not limited to, personal history, prior activities and associations, credit history, civil litigation, past and present financial affairs and standing, and business activities, including whether the applicant or an affiliate of the applicant has a financial interest in any business or organization that is or was engaged in any form of gaming or transactions related to gaming prohibited by the law of the federal or state jurisdiction in which those activities took place. The department may specify additional requirements regarding the contents of the report and other information or documentation required to be submitted.

(f) There shall be a rebuttable presumption that an applicant for a service provider license is unsuitable if the service provider or any corporate or marketing affiliate of the service provider, accepted any wager or engaged in transactions related to such wagers from persons in the United States in any form of Internet gaming after December 31, 2006, or proposes to use assets, whether owned by the applicant or any other entity, that were used to accept such wagers or engage in a financial transaction related thereto, unless the service provider or its affiliate was licensed pursuant to this chapter or comparable federal or state law in the jurisdiction in which the wager was accepted or the transaction was permitted. A service provider may rebut this presumption by presenting clear and convincing evidence to the department that the acceptance of such wager was not knowing or intentional and that the wager was accepted or the related financial transaction was entered into or conducted notwithstanding reasonable efforts by the service provider, its affiliate or subsidiary, to exclude bets from persons located in a jurisdiction in which it was not licensed or authorized to accept wagers.

(g) An institutional investor holding less than 10 percent of the equity securities of a service provider's holding or intermediary companies shall be granted a waiver of an investigation of suitability or other requirement if all of the following apply:

(1) The securities are those of a corporation, whether publicly traded or privately held.

(2) Holdings of those securities were purchased for investment purposes only.

(3) The institutional investor annually files a certified statement with the department to the effect that it has no intention of influencing or affecting the affairs of the issuer, the licensee, or service provider, as applicable, or its holding or intermediary companies.

(4) Notwithstanding paragraph (3), the institutional investor may vote on matters submitted to the vote of the outstanding security holders.

(5) The certification described in paragraph (3) shall include a statement that the institutional investor beneficially owns the equity securities of the corporation for investment purposes only, and in the ordinary course of business as an institutional investor, and not for the purpose of causing, directly or indirectly, the election of members of the board of directors, or effecting a change in the corporate charter, bylaws, management, policies, or operations of the corporation or any of its affiliates. The certification also shall indicate any changes to the structure or operations of the institutional investor that could affect its classification as an institutional investor, as listed in paragraph (7). Additionally, the certification shall state that the institutional investor and corporation shall maintain gaming compliance policies and procedures to implement and ensure compliance with this chapter and regulations promulgated thereunder.

(6) An institutional investor granted a waiver under this subdivision that subsequently decides to influence or affect the affairs of the issuer shall provide not less than 30 days' notice of that intent and shall file with the department a request for determination of suitability before taking an action that may influence or affect the affairs of the issuer. However, the institutional investor may vote on matters submitted to the vote of the outstanding security holders. If an institutional investor changes its investment intent, or the department finds reasonable cause to believe that the institutional investor may be found unsuitable, the institutional investor shall take no action other than divestiture with respect to its security holdings until it has complied with any requirements established by the department, which may include the execution of a trust agreement. The institutional investor and its relevant holding, related, or subsidiary companies shall immediately notify the department and, if a tribal license is involved, the tribal regulatory agency, of any information about, or actions of, an institutional investor holding its equity securities when that information or action may impact upon the eligibility of the institutional investor for a waiver pursuant to paragraph (2).

(7) If at any time the department finds that an institutional investor holding a security of a licensee under this chapter has failed to comply with the terms of this chapter, or if at any time the department finds that, by reason of the extent or nature of its holdings, whether of debt or equity securities, an institutional investor is in a position to exercise such a substantial impact upon the controlling interests of a licensee that investigation and determination of suitability of the institutional investor are necessary to protect the public interest, the department may take any necessary action otherwise authorized under this chapter to protect the public interest.

(8) For purposes of this subdivision, an “institutional investor” includes all of the following:

(A) A retirement fund administered by a public agency for the exclusive benefit of federal, state, or local public employees.

(B) An investment company registered under the federal Investment Company Act of 1940 (15 U.S.C. Sec, 80a-1 et seq.).

(C) A collective investment trust organized by banks under Part Nine of the Rules of the Office of the Comptroller of the Currency.

(D) A closed-end investment trust.

(E) A chartered or licensed life insurance company or property and casualty insurance company.

(F) A federally regulated or state-regulated bank, savings and loan, or other federally or state-regulated lending institution.

(G) An investment adviser registered under the federal Investment Advisers Act of 1940 (15 U.S.C. Sec. 80b-1 et seq.).

19990.405.

(a) The department may issue a finding of suitability for a license applicant to obtain a license only if, based on all of the information and documents submitted, the commission is satisfied that each of the persons subject to investigation pursuant to this section is both of the following:

(1) A person of good character, honesty, and integrity, or, if an entity, in good standing in its jurisdiction of organization and in all other jurisdictions in which it is qualified, or should be qualified, to do business.

(2) A person whose prior activities, criminal record, if any, reputation, habits, and associations do not pose a threat to the public interest of this state, or to the effective regulation and control of controlled poker, or create or enhance the dangers of unsuitable, unfair, or illegal practices, methods, and activities in the conduct of controlled poker or in the carrying on of the business and financial arrangements incidental thereto.

(b) The commission shall issue a finding that a license applicant is not suitable to obtain a license if it finds that a person subject to investigation pursuant to this section is described by any of the following:

(1) Failed to clearly establish eligibility and qualifications in accordance with this chapter.

(2) Failed to timely provide information, documentation, and assurances required by this chapter or requested by the department, or, with respect to a license applicant, failed to reveal any fact

material to qualification, or supplied information that is untrue or misleading as to a material fact pertaining to the suitability criteria.

(3) Been convicted of a felony, including a conviction by a federal court or a court in another state or foreign jurisdiction for a crime that would constitute a felony if committed in California, except that a conviction of a felony involving the hunting or fishing rights of a tribal member while on his or her reservation shall not be included among the class of disqualifying felonies.

(4) Been convicted of a misdemeanor in a jurisdiction involving dishonesty or moral turpitude within the 10-year period immediately preceding the submission of the application, unless the applicant has been granted relief pursuant to Section 1203.4, 1203.4a, or 1203.45 of the Penal Code. However, the granting of relief pursuant to Section 1203.4, 1203.4a, or 1203.45 of the Penal Code shall not constitute a limitation on the discretion of the department or affect the applicant's burden.

(5) Has associated with criminal profiteering activity or organized crime, as defined in Section 186.2 of the Penal Code.

(6) Has contemptuously defied a legislative investigative body, or other official investigative body of a state or of the United States or a foreign jurisdiction, when that body is engaged in the investigation of crimes relating to poker, official corruption related to poker activities, or criminal profiteering activity or organized crime, as defined in Section 186.2 of the Penal Code.

(7) Is less than 21 years of age.

(8) Has knowingly and willfully accepted a bet or entered into a financial transaction related to such bet after December 31, 2006, from a person located in the United States on any form of Internet gambling, including, but not limited to, poker, that has not been affirmatively authorized by the law of the United States or of the state in which the person making the bet or where the related financial transaction was located, or has been the holder of a direct or indirect financial interest in a person or entity that has accepted that bet or engaged in such transaction.

(9) Has knowingly facilitated or otherwise provided services with respect to bets or gambling games using the Internet, or engaged in financial transactions related to such bets, involving persons located in the United States for a person described in paragraph (8), acting with knowledge of the fact that these bets, financial transactions or gambling games involved persons located in the United States, except where such bets were accepted after December 31, 2006 by the holder of a federal or state license making the acceptance of such bets or related financial transactions lawful.

(c) Actions on license applications will be treated as follows:

(1) The commission shall reject the license application of an applicant found to be ineligible for licensure.

(2) If denial of the application, or approval of the license with restrictions or conditions on the license, is recommended, the department shall prepare and file with the commission written reasons upon which the recommendation is based. Prior to filing its recommendation with the commission, the department shall meet with the applicant, or the applicant's duly authorized representative, and inform the applicant generally of the basis for a proposed recommendation that the application be denied, restricted, or conditioned.

(3) This section neither requires the department to divulge to the applicant confidential information received from a law enforcement agency or information received from a person with assurances that the information would be maintained confidential, nor to divulge any information that might reveal the identity of an informant or jeopardize the safety of a person.

(4) Denial of an application shall be without prejudice to a new and different application filed in accordance with any regulations adopted by the department with respect to the submission of applications.

(5) A request to withdraw an application for a license may be made by the license applicant at any time prior to final action on the application by the department by filing a written request with the commission to withdraw the application, absent knowledge of a specific reason to suspect that the person or entity may be found unsuitable.

(6) The commission shall waive the application of the provisions of paragraph (8) or (9) of subdivision (b) for an applicant who can demonstrate by clear and convincing evidence that its conduct in connection with bets and gambling games involving persons located in the United States was not unlawful under federal law and the laws of each state in which persons making the bets were located. In making this determination, the commission may consider evidence that the applicant was prosecuted under the laws of any state, the United States, or another jurisdiction. However, the termination of a prosecution in a manner other than a conviction does not constitute evidence that the applicant's conduct was lawful. This section does not waive the need to comply with all otherwise applicable license and suitability requirements.

19990.406.

(a) This chapter does not restrict the authority of a tribe that is a licensed operator or that owns a tribal enterprise that is a licensed operator to conduct suitability reviews of its service providers.

(b) This chapter also does not prohibit a tribal regulatory agency from providing the results of its suitability investigations or determinations to the commission or department for its consideration in issuance of service provider licenses pursuant to this chapter.

Article 5. Requirements for the Operation of an Authorized poker Web site.

19990.518.

There shall be three categories of application, regulatory, and license fees and deposits, as follows:

- (a) Application Processing Fee. In order to cover the costs of suitability investigations and other costs of processing an application for a license or work permit, the applicant shall deposit the applicable application processing fee as provided in subdivision (a) of Section 19990.402, subdivision (d) of Section 19990.403, subdivision (b) of Section 19990.404, or Section 19990.604. Any balance of the application processing fee that remains after completion of a background investigation and the finding of suitability shall be refunded to the applicant. If additional moneys are needed to complete the investigation of the license applicant, the applicant shall pay the funds necessary to complete the investigation.

(b) One-time License Deposit. Prior to offering any games for play or accepting any bets on its authorized poker Web site, a licensed operator shall pay the one time license deposit as provided in subdivision (a) of Section 19990.519, which deposit shall be an advance against the duty on gross gaming revenues specified in subdivision (b) of Section 19990.519.

(c) Ongoing Regulatory Fees. Following issuance of a license and beginning of operations thereunder, the licensed operator shall pay the ongoing regulatory fees set forth in subdivision (c) of Section 19990.519.

19990.519.

(a) In support of the application for a license pursuant to this chapter, prior to offering games or accepting bets on its authorized poker Web site, the licensed operator shall remit to the Treasurer a one-time license deposit in the amount of five million (\$5,000,000), to be deposited into the General Fund, and credited against charges imposed pursuant to subdivision (b) on the licensed operator's gross gaming revenues. Upon depletion of the license deposit, the commission shall notify the licensed operator to commence quarterly payments to the state in accordance with subdivision (b).

(b) In consideration of the substantial value of each license, a licensed operator shall remit to the Treasurer on a quarterly basis for deposit in the General Fund an amount equal to 5 percent of its gross gaming revenues.

(1) Each quarterly payment shall be due on the 10th day of the month following the end of each quarter.

(2) A licensed operator shall make all electronic and written financial records available to the Treasurer, the commission, and the department on an electronic basis.

(c) Each licensed operator shall pay a regulatory fee, to be deposited in the Internet Poker Fund, in an amount, to be determined by the commission for the reasonable costs of license oversight, consumer protection, state regulation, problem gambling programs, and other purposes related to this chapter, determined on a pro rata basis depending on the number of licensed operators in the state.

19990.520.

(a) The licensed operator shall facilitate the collection of personal income taxes from registered players by the Franchise Tax Board and shall be responsible for providing current and accurate documentation on a timely basis to all state agencies, as provided in this chapter.

(b) The state and its agencies shall treat the proprietary information provided by a licensed operator as confidential to protect the licensed operator and to protect the security of the authorized poker Web site.

(c) The confidentiality provisions of this chapter exempt proprietary information supplied by a licensee to a state agency from public disclosure consistent with subdivision (b) of Section 6253 of the Government Code.

19990.521.

(a) A licensee shall act expeditiously to cure any violation of this chapter, or any violation of a regulation adopted pursuant to this chapter, in the offer or administration of authorized Internet poker games that interferes with its obligations to the state or registered players under this chapter.

(b) If a licensee becomes aware of any violation, it shall notify the commission immediately and work with the commission to develop a plan to rectify the violation.

(c) If the commission becomes aware of any violation, or if it becomes aware of any activities that might lead to a violation, the commission shall provide notice of that violation to the licensee and the department and a reasonable opportunity to cure the violation. If the violation has not been timely cured, the commission may refer it to the department for investigation and possible enforcement.

(d) All state agencies with responsibilities under this chapter shall report any actual or suspected violation of this chapter, or any regulation adopted pursuant to this chapter, or activities that may lead to a violation, to the department immediately so that the department can assess whether it needs to commence an investigation or enforcement action.

(e) A licensee shall be afforded a reasonable time period to cure any reported violation.

(f) The department shall have subpoena power in an investigation of any violation of this chapter, or any regulation adopted pursuant to this chapter.

(g) The commission may revoke or suspend any license or work permit under this chapter upon reaching a finding that the licensee or employee is in violation of any provision of this chapter, or any regulation adopted pursuant to this chapter. However, a tribal licensee shall not have its license suspended or revoked, or be fined or otherwise penalized, for complying with any applicable federal law or regulation when operating an Internet poker Web site on Indian lands. To the extent that any state requirement is more stringent than any applicable federal requirement, the tribal licensee shall comply with the more stringent state requirement unless the federal requirement preempts state law.

(h) A licensee may appeal any final decision of the department pursuant to this section to the superior court. The superior court shall hear any appeal de novo.

(i) The department shall protect the rights and assets of registered players on an authorized poker Web site if the licensed operator's license pursuant to this chapter is revoked or the licensed operator becomes bankrupt.

19990.522.

(a) A license issued pursuant to this chapter is not transferable. To the extent a licensed operator seeks to change ownership of its land-based gaming facility the license held by the licensed operator shall be rendered void upon the date of any change of ownership in the land-based gaming facility. In anticipation of a change in ownership, the acquiring person shall apply for a license in advance, at which point the commission shall determine whether the applicant is legally qualified to be a licensed operator under this chapter.

(b) The commission shall investigate to ensure that any person acquiring an interest in a licensee is suitable and otherwise financially, technically, and legally qualified to be a licensee pursuant to this chapter. If an acquiring person is found to be unsuitable to be a licensee, or otherwise not financially, technically, or legally qualified to be a licensee, the licensee or the acquiring person may challenge that determination.

19990.523.

All facilities, software, including downloadable programs, and any other property, both tangible and intangible, used by the licensed operator in offering authorized Internet poker games for play on an authorized poker Web site shall be the property of the licensed operator or its licensed service providers, and shall be subject to the approval of the commission.

19990.524.

If any dispute arises between the state and a licensee, either the commission or a licensee may file an action in the superior court of any county in which the commission has an office for an interpretation of the rights and responsibilities of the state and the licensee pursuant to this chapter.

Article 6. Employee Work Permits

19990.601.

(a) Except as provided in Section 19990.601.5, a licensee shall apply to the commission for an employee work permit on behalf of each employee.

(b) Prior to initiating operations and thereafter, a licensee shall ensure that every employee has been issued an employee work permit by the commission prior to that person having access to the licensee's facilities. The permit shall be renewed every two years.

(c) An employee work permit shall not be issued unless, based on all of the information and documents submitted, the commission is satisfied that the applicant is, at a minimum, all of the following:

(1) A person of good character, honesty, and integrity.

(2) A person whose prior activities, criminal record, if any, reputation, habits, and associations do not pose a threat to the integrity of a gaming operation or public interest of this state, or to the effective regulation and control of controlled gambling, or create or enhance the dangers of unsuitable, unfair, or illegal practices, methods, and activities in the conduct of controlled gambling or in the carrying on of incidental business and financial arrangements.

(3) A person who is in all other respects qualified to hold an employee work permit as provided in this chapter.

(d) An employee work permit shall not be issued unless the applicant meets the qualification standards adopted by the commission. A tribal gaming regulatory authority may impose additional qualifications with respect to activities on Indian lands.

19990.601.5

(a) A tribe that is a licensed operator, or that owns a tribal enterprise that is a licensed operator, may elect to participate in the tribal gaming agency process prescribed by this section for the issuance of employee work permits. If the tribe does not elect to participate in the tribal gaming agency process as provided in this section, then the process specified in this section regarding submission and action by the tribal gaming regulatory agency on the application for employee work permit shall not apply, and the other provisions of this chapter shall instead govern.

(b) The joint state and tribal processes required under this subsection are intended to promote and involve joint cooperation among tribal regulatory agency, the commission, and the department.

(c) The tribal employee work permit process shall be as follows:

(1) All applications for employee work permits first shall be filed with the tribal gaming agency, which shall promptly file a copy of the application with the commission, together with information regarding the filing date and the payment of fees and deposits. The application shall be accompanied by all the application processing fee required in Section 19990.604, except all such fees shall be deposited into a tribal account created for the purpose of holding the deposited funds and using them for the costs of conducting the required suitability review.

(A) Failure to pay the application processing fee may be grounds for denial of the application.

(B) An application processing fee from a permit applicant that remains after completion of a background investigation and the finding of suitability shall be refunded to the applicant. If

additional moneys are needed to complete the investigation of the permit applicant, the applicant shall pay the funds necessary to complete the investigation.

(2) In reviewing an application for a work permit, the tribal regulatory agency shall determine whether issuance of the employee work permit would meet the suitability standards set forth in this chapter. A permit may not be issued unless, based on all information and documents submitted, the tribal regulatory agency determines that the applicant meets all of the criteria set forth in this chapter for the issuance of the employee work permit.

(3) The tribal regulatory agency shall conduct, or cause to be conducted, all necessary background investigations reasonably required to determine that the applicant is qualified for an employee work permit under the standards set forth in this chapter for the issuance of the employee work permit.

(4) In lieu of completing its own background investigation, and to the extent that doing so does not conflict with or violate this chapter, the tribal regulatory agency may contract with the commission and the department for the conduct of background investigations, may rely on a state certification of nonobjection previously issued under a gaming compact involving another tribe, or may rely on a state gaming license previously issued to the applicant, to fulfill some or all of the tribal regulatory agency's background investigation obligation. An applicant for a tribal employee work permit shall be required to provide releases to make available to the tribal agency and the commission background information regarding the applicant.

(5) Upon completion of the necessary background investigation, the tribal regulatory agency may issue a finding that the person or entity is eligible for an employee work permit on a conditional or unconditional basis. Nothing herein shall create a property or other right of an applicant in an opportunity to be permitted, or in a permit itself, both of which shall be considered to be privileges granted to the applicant in the sole discretion of the tribal regulatory agency.

(6) Upon receipt of a completed license application and a determination by the tribal regulatory agency that the applicant is eligible and suitable for the employee work permit, the tribal regulatory agency shall transmit to the commission a notice of intent to issue a permit to the applicant. The tribal regulatory agency shall not issue an employee work permit until the process required by paragraph (7) is complete.

(7) After receipt of the tribal regulatory agency's notice pursuant to paragraph (6), and upon completion of the necessary background investigation or other verification of suitability, the commission shall issue a notice to the tribal regulatory agency stating its finding that the applicant is suitable or is not suitable for the requested permit. The commission may charge an additional application processing fee to cover the reasonable costs of conducting its verification of suitability.

(A) If the commission notices a finding that the applicant is suitable, the tribal regulatory agency shall issue an employee work permit to the applicant, which permit shall be effective under this chapter as though issued by the commission.

(B) If the commission notices a finding that the applicant is not suitable, the tribal regulatory agency shall not issue the requested permit. Prior to denying an application for a determination of suitability, the commission shall notify the tribal regulatory agency and afford the tribe an opportunity to be heard. If the commission denies an application for a determination of suitability, that agency shall provide the applicant with written notice of all appeal rights available under state law.

(C) Upon receipt of notice that the commission or department, collectively or individually, the commission, or the tribal gaming agency has determined that a person would be unsuitable for licensure in a similar application filed in connection with a nontribal operation, the tribal regulatory agency shall not issue the requested permit or, if that notice is received after issuance of the permit, promptly revoke that permit, provided that the tribal regulatory agency may, in its discretion, reissue a permit to the person following entry of a final judgment reversing the determination of the commission and department in a proceeding in state court conducted pursuant to Section 1085 of the Civil Code.

(8) Any tribal permit application under this chapter may be denied, and any permit issued may be revoked, if the tribal regulatory agency determines that the application is incomplete or deficient, or if the applicant is determined to be unsuitable or otherwise unqualified for a gaming license. Pending consideration of revocation, the tribal regulatory agency may suspend a permit. All rights to notice and hearing shall be governed by the rules of the tribal regulatory agency, which shall meet minimum requirements to be developed among the tribes, the commission, and the department, and as to which the applicant will be notified in writing, along with notice of an intent to suspend or revoke the permit.

(9) The tribal regulatory agency may summarily suspend an employee work permit issued pursuant to this section if the tribal regulatory agency determines that the continued licensing of the person or entity could constitute a threat to the public health or safety or may violate this chapter.

(d) The commission and tribal regulatory agencies conducting suitability reviews pursuant to this section shall cooperate in sharing as much background information as possible, both to maximize investigative efficiency and thoroughness, to minimize investigative costs, and to expedite the licensing process. The commission shall not impose a greater burden or cost upon an application originating from a tribal applicant or regulatory agency than if the application originated in connection with a nontribal operator.

(e) The commission and the tribes that have elected to conduct suitability reviews pursuant to this section shall cooperate in developing standard forms for tribal gaming employee work

permit applicants, on a statewide basis, that reduce or eliminate duplicative or excessive paperwork, which forms and procedures shall take into account the requirements under this chapter and the expense thereof.

19990.602.

An applicant for an employee work permit is disqualified for any of the following reasons:

(a) Failure of the applicant to clearly establish eligibility and qualification in accordance with this chapter.

(b) Failure of the applicant to provide timely information, documentation, and assurances required by this chapter or requested by any state official, failure of the applicant to reveal any fact material to the qualification, or the supplying of information that is untrue or misleading as to a material fact pertaining to the qualification criteria.

(c) Conviction of a felony, including a conviction by a federal court, a court in another state, or a court in another country, for a crime that would constitute a felony if committed in California.

(d) Conviction of the applicant for any misdemeanor involving dishonesty or moral turpitude within the 10-year period immediately preceding the submission of the application, unless the applicant has been granted relief pursuant to Section 1203.4, 1203.4a, or 1203.45 of the Penal Code. However, the granting of relief pursuant to Section 1203.4, 1203.4a, or 1203.45 of the Penal Code shall not constitute a limitation on the discretion of the department or affect the applicant's burden under subdivision (b).

(e) Association of the applicant with criminal profiteering activity or organized crime, as defined by Section 186.2 of the Penal Code.

(f) Contemptuous defiance by the applicant of any legislative investigative body, or other official investigative body of any state or of the United States, when that body is engaged in the investigation of crimes relating to gambling, official corruption related to gambling activities, or criminal profiteering activity or organized crime, as defined by Section 186.2 of the Penal Code.

(g) The applicant is less than 21 years of age.

(h) The applicant was a key employee of an entity that has knowingly and intentionally accepted a wager from any person in the United States on any form of Internet gaming after December 31, 2006, except as authorized by this chapter or comparable federal or state law in the jurisdiction in which the wager was accepted or in which a financial transaction related thereto was located, or has been the holder of a direct or indirect financial interest in a person or entity that has accepted that wager unless the applicant presents clear and convincing evidence to the department that the acceptance of such wager or entering into such transaction was not knowing or intentional and that the wager was accepted or the transaction was engaged in notwithstanding

reasonable efforts by the service provider, its affiliate or subsidiary, to exclude bets from persons located in a jurisdiction in which it was not licensed or authorized to accept wagers.

19990.603.

(a) If a licensed operator has any owners, officers, or directors who are not employees, it shall ensure that each of those persons obtains an employee work permit before having any role or decision making authority regarding the license holder's gaming operations.

(b) If the licensed operator is a tribal enterprise controlled by an independent board of directors, the officers, directors, and employees of that tribal enterprise are subject to suitability review pursuant to this section. This section does not require that an officer, director, employee, or member of the tribe that owns the tribal enterprise be subject to suitability review if that individual is not also an officer, director, employee or member of the tribal enterprise or a person who controls the core functions of the tribal enterprise.

19990.604.

The commission and, if applicable, the tribal gaming regulatory authority shall establish fees to be paid by a licensee for the reasonable cost of background investigation on employee work permit applications. The commission shall establish processes for the revocation or suspension of an operator license or employee work permit, and to withdraw an application for an operator license or employee work permit.

19990.605.

(a) A licensed operator or service provider shall not enter into, without prior approval of the commission a contract or agreement with a person who is denied a gambling license or employee work permit pursuant to Chapter 5 (commencing with Section 19800), or whose gambling license or employee work permit is suspended or revoked by the department, or with any business enterprise under the control of that person, after the date of receipt of notice of the action of the department.

(b) A licensed operator or service provider shall not enter into a contract or agreement with a person or entity that has knowingly and intentionally accepted a wager from any person in the United States on any form of Internet gaming after December 31, 2006, except as authorized by this chapter or comparable federal or state law in the jurisdiction in which the wager was accepted or in which a financial transaction related thereto was located, or has been the holder of a direct or indirect financial interest in a person or entity that has accepted that wager unless the person or entity presents clear and convincing evidence to the department that the acceptance of such wager or entering into such transaction was not knowing or intentional and that the wager was accepted or the transaction was engaged in notwithstanding reasonable efforts by the service

provider, its affiliate or subsidiary, to exclude bets from persons located in a jurisdiction in which it was not licensed or authorized to accept wagers.

19990.606

(a) A licensed operator or service provider shall not employ, without prior approval of the commission a person in any capacity for which he or she is required to have an employee work permit, if the person has been denied a gambling license or an employee work permit pursuant to Chapter 5 (commencing with Section 19800), or if his or her gambling license or employee work permit has been suspended or revoked after the date of receipt of notice of the action by the commission or tribal gaming regulatory authority. A licensed operator or service provider shall not enter into a contract or agreement with a person whose application for a gambling license or an employee work permit has been withdrawn with prejudice, or with a business enterprise under the control of that person, for the period of time during which the person is prohibited from filing a new application for a gambling license or an employee work permit.

(b) (1) If an employee who is required to hold an employee work permit pursuant to this chapter is denied an employee work permit, or has his or her employee work permit revoked by the commission, the employee shall be terminated immediately in all capacities. Upon notifying the licensee of the action of the commission or tribal gaming regulatory authority, the employee shall have no further involvement in the gambling operation.

(2) If an employee who is required to hold an employee work permit pursuant to this chapter has his or her employee work permit suspended, the employee shall be suspended in all capacities. Upon notifying the licensee of the action of the commission, the employee shall not be permitted to have any involvement in the gambling operation during the period of suspension.

(3) A licensed operator or service provider shall not designate another employee to replace the employee whose employment was terminated or suspended, unless the other employee has an existing work permit.

(c) A licensed operator or service provider shall not pay to a person whose employment has been terminated or suspended pursuant to subdivision (b) any remuneration for any service performed in any capacity in which the person is required to hold an employee work permit, except for amounts due for services rendered before the date of receipt of notice of the action of the commission.

(d) Except as provided in subdivision (b), a contract or agreement for the provision of services or property to a licensed operator or service provider or for the conduct of any activity pertaining to the operation of an authorized poker Web site, that is to be performed by a person required by this chapter, or by regulations adopted pursuant to this chapter, to hold an employee work permit, shall be terminated upon a suspension or revocation of the person's employee work permit.

(e) In a case in which a contract or agreement for the provision of services or property to a licensed operator or service provider, or for the conduct of any activity at an authorized poker Web site, is to be performed by a person required by this chapter or by regulations adopted by the department to hold an employee work permit, the contract shall be deemed to include a provision for its termination without liability on the part of the licensed operator or service provider upon a suspension or revocation of the person's employee work permit. In any action brought by the commission to terminate a contract pursuant to subdivision (d) or this subdivision, it shall not be a defense that the agreement does not expressly include the provision described in this subdivision, and the lack of express inclusion of the provision in the agreement shall not be a basis for enforcement of the contract by a party thereto.

Article 7. Protection of Registered Players

19990.701.

A licensed operator shall use its best efforts to protect registered players. Subject to the approval of the commission, and consistent with uniform standards established by the commission by regulation, each licensed operator shall establish administrative procedures to resolve registered player complaints.

19990.702.

- (a) If a registered player has a complaint against a licensed operator, the exclusive remedy shall be to register the complaint with the commission.
- (b) The commission, in consultation with the department, shall establish regulations with respect to registered player complaints.
- (c) Under the regulations, the commission shall do all of the following:
 - (1) Investigate registered player complaints to determine if a licensed operator has failed to meet its obligations to a registered player.
 - (2) Attempt to resolve complaints by registered players if a licensed operator fails to meet an obligation to a registered player.
